NOTICE OF ASSEMBLE

Tips for Assembling Wood

Find the corresponding block number, use a knife in the connection point gently press, you can take out the wood.

Use a knife to smooth out the burr.

Or use sandpaper to smooth out the burr

Testing on LED function

Be sure to test the LED lights before making the lighting, note that the LED white wire to the negative, gray wire to the positive reference to the following figure operation test.

1

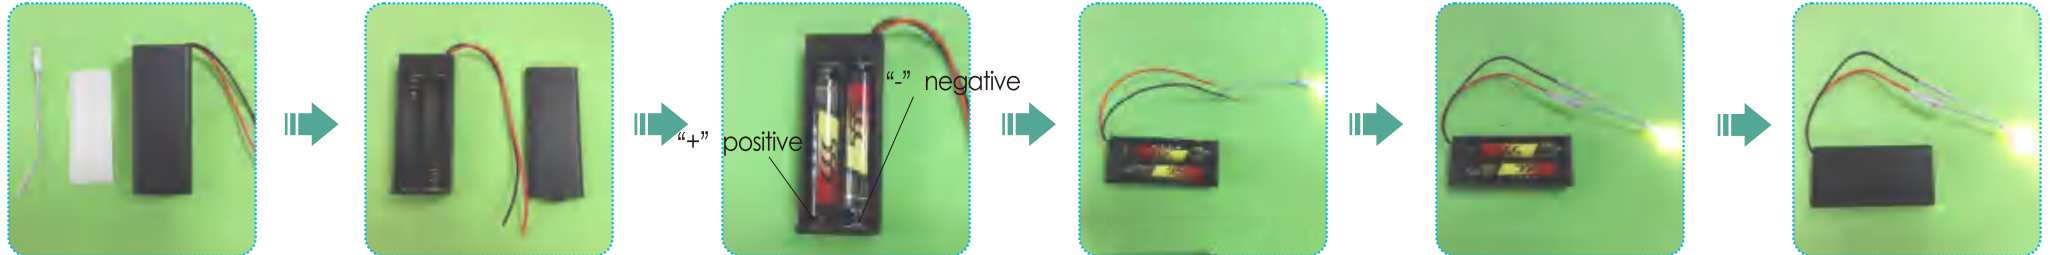

DO NOT contact the LED wire end direct to the battery cell.

2

Use the provide battery holder. Make sue the correct polarity.

How to assemble the battery holder

1. Material and tools needed:
- Battery holder, LED bulb, tape, screw driver and 2 pieces AAA size battery(not provided)

2. Use screw driver and take the lid off from the battery holder.

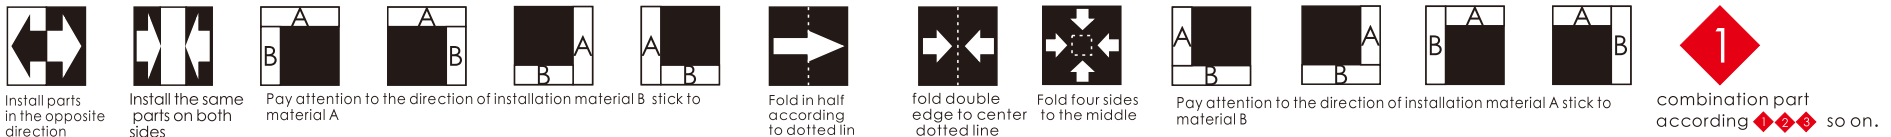

3. Insert the battery take notes on the polarity.

4. Connect the red wire to grey wire. Connect the black wire to white wire.

5. Wrap the exposed wire with the tapes.

6. Place the box lid and fastness with screw driver.

Symbol description used

About the use of glue

Method for using glue:

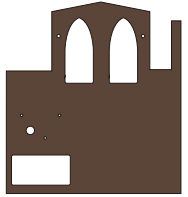

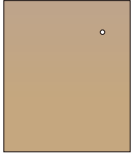

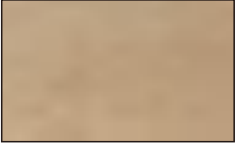

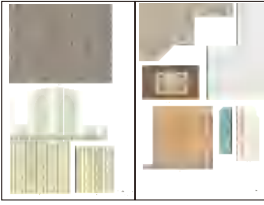

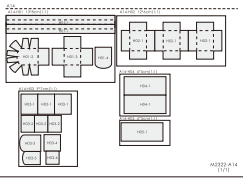

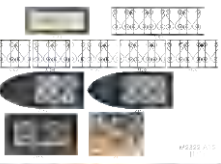

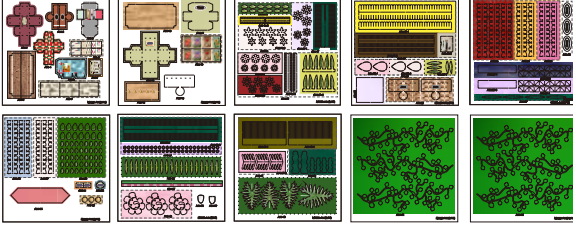

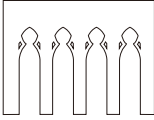

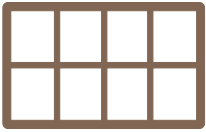

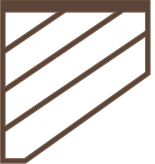

1. After applying the glue, let it dry for a few seconds before pasting.
2. Fix it slightly with your hands, and finally put it aside to dry;

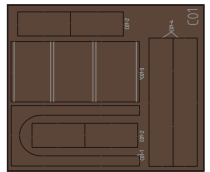

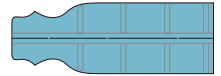

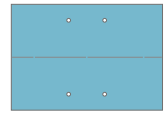

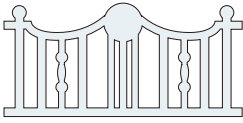

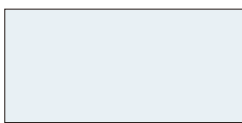

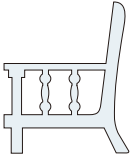

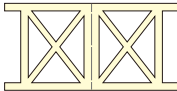

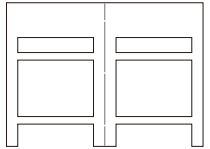

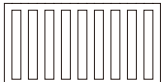

Tips:

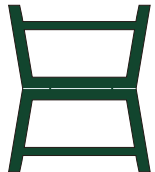

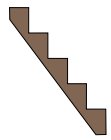

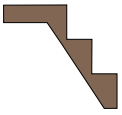

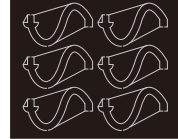

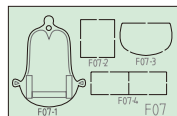

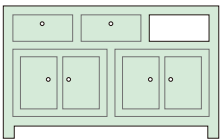

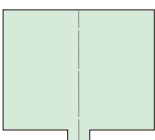

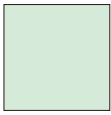

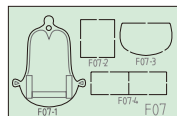

When pasting the plane printing paper, a piece of waste bank card or telephone card can be used to wipe evenly after the glue is smeared on the wood board, and then the printing paper is pasted to squeeze out the air inside.

Types of glue:

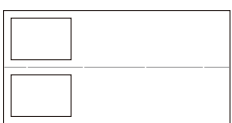

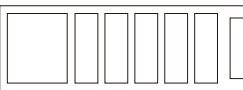

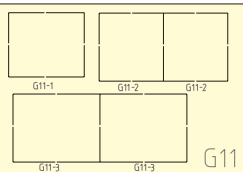

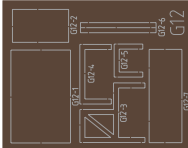

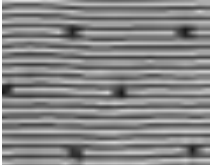

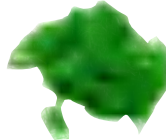

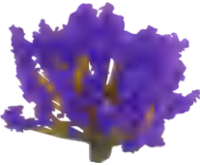

White latex: Used for adhering soft materials, such as wood and paper.
Alcoholic Glue: Used for adhering hard materials such as cloth, plastic, beads, wire, dust cover, etc.

Paste and fix

Widget production

Before production, first cut out the wood particle boards of F06 and F07. You can choose the following components to make according to personal preferences

1

Place as shown in the picture, paste and fix it

2

Place as shown in the picture, paste and fix it

3

Place as shown in the picture, paste and fix it

4

The above methods are used to complete the color

5

Place as shown in the picture, paste and fix it

6

Paste as shown in the picture

7

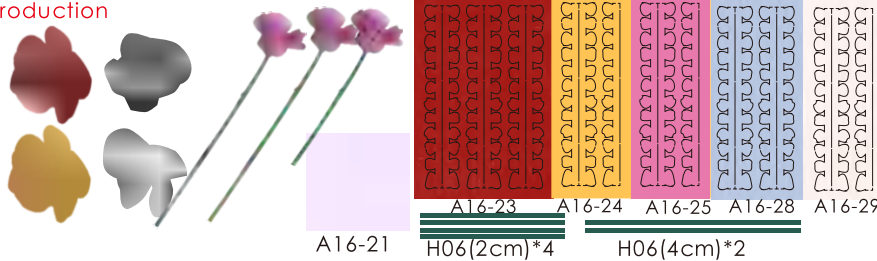

Paste as shown in the picture

8

Paste as shown in the picture

Colorful flowers

According to personal preferences, the following components can be selected for production

4

H06(2cm)*3

Three of them are inserted into H06 and pasted

5

A16-21

Fold in half as shown in the picture

6

Place, paste and fix as shown in the picture

1

A16-23

Use tweezers to clamp and roll up the paste

2

A16-23

Roll up fixed effect

3

A16-23

6 flowers need to be completed

10

(bouquet)

According to personal preferences, the following components can be selected for production

H06(3cm)

H06(3cm)

H06(2cm)

L01

A16-30

1

A16-30

H06

Paste A16-30 with different lengths of H06

2

L01

Thread into the light line

5

11

Install flowers

3

J01

Insert an appropriate amount of J01

4

Trimmed H06 inserted into the wood hole

Install the climbing vine

6

J01

Insert an appropriate amount of J01

7

12

Install flowers

8

11

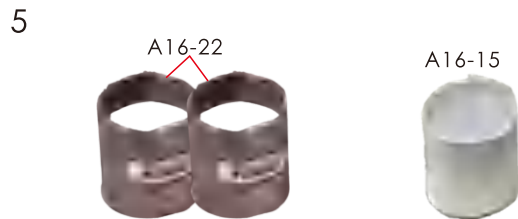

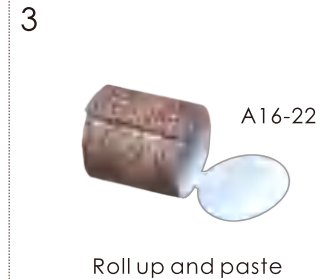

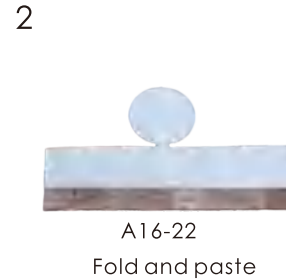

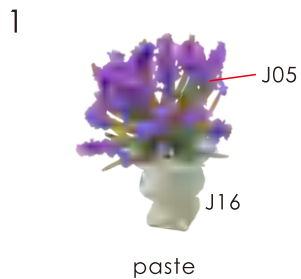

9

12

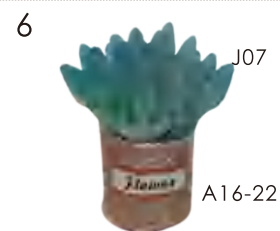

Install as shown in the diagram, with the light wire threading out from the rear hole position

Install as shown in the diagram

According to personal preferences, the following components can be selected for production

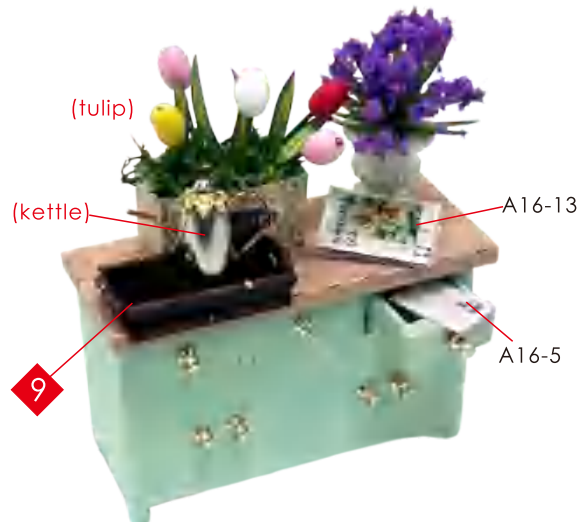

The above methods complete A16-22 and A16-15

Place and paste as shown in the picture

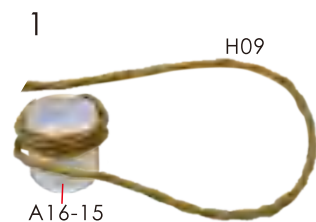

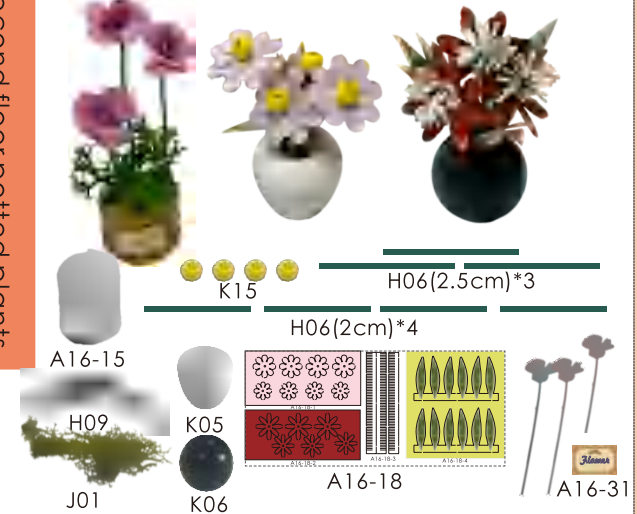

J03 Crop the required size, place and paste

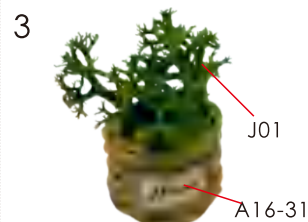

Parts can be placed according to personal preferences

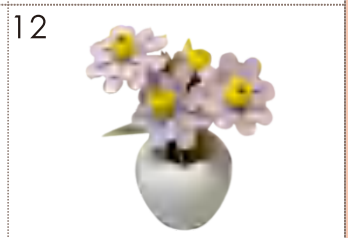

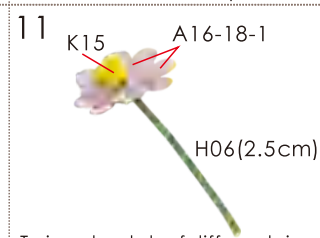

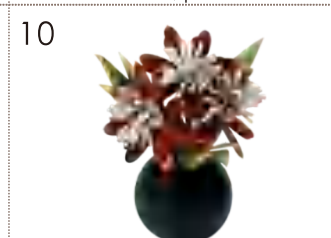

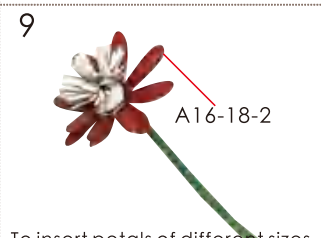

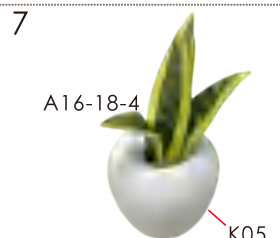

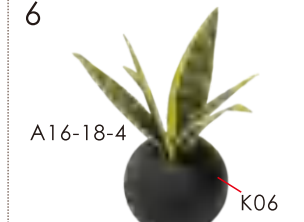

According to personal preferences, the following components can be selected for production

H09 pasted around A16-15

Insert an appropriate amount of J01

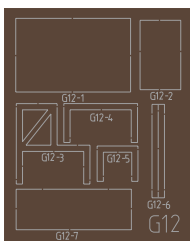

Second floor flower rack

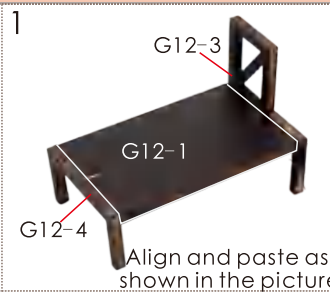

Before production, first remove the G12 wood particle board

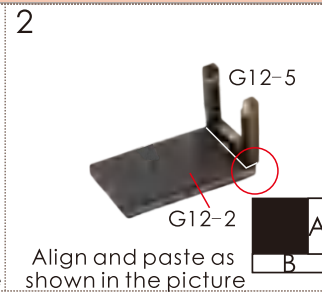

G06

G12

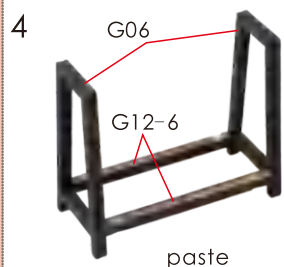

Align and paste as shown in the picture

Align and paste as shown in the picture

(Flower rack 1)
Assemble and fix as shown in the picture

paste

(Flower rack 2)
Assemble and fix as shown in the picture

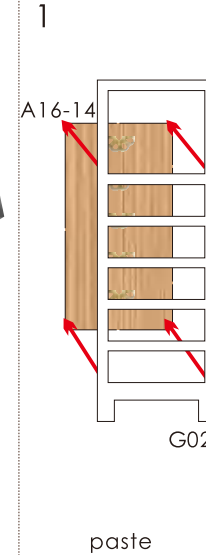

Parts can be placed according to personal preferences

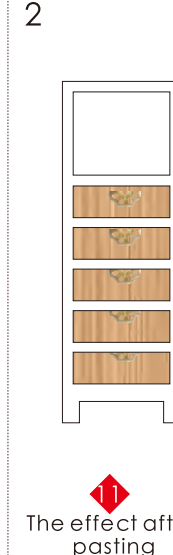

Parts can be placed according to personal preferences

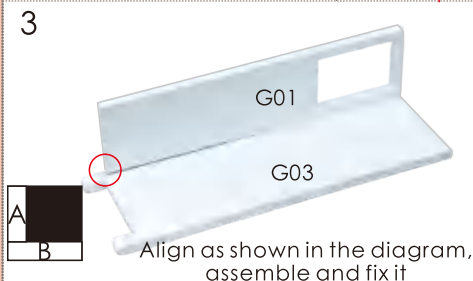

Second floor cabinet

paste

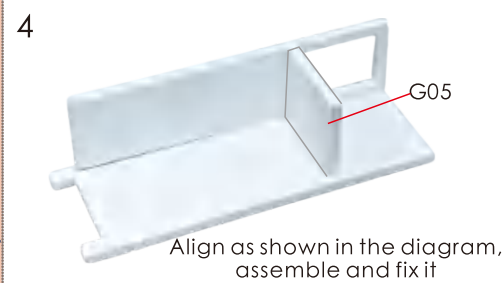

The effect after pasting

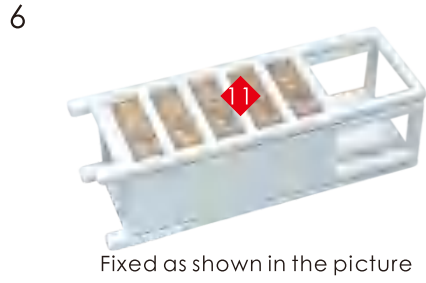

Align as shown in the diagram, assemble and fix it

Align as shown in the diagram, assemble and fix it

Align as shown in the diagram, assemble and fix it

Fixed as shown in the picture

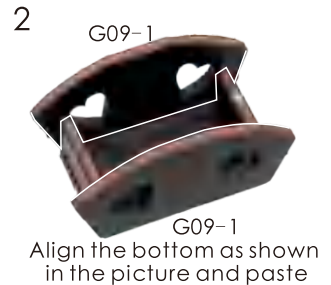

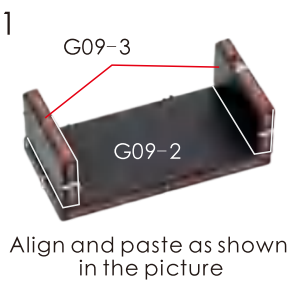

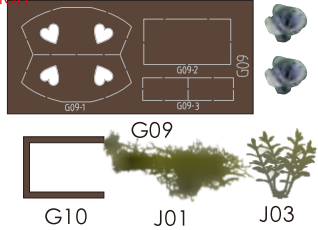

Fixed as shown in the picture

Parts can be placed according to personal preferences

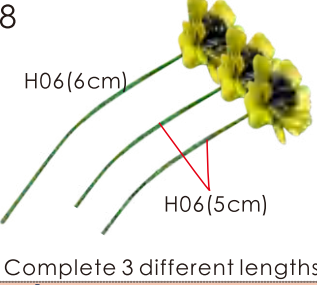

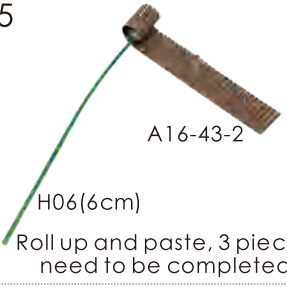

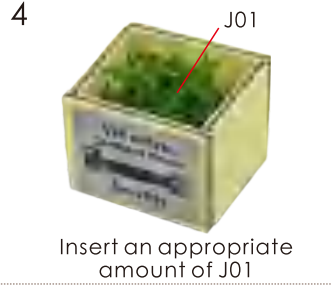

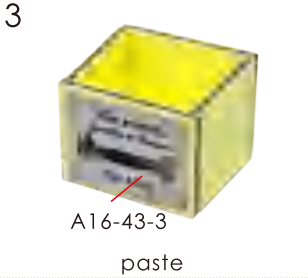

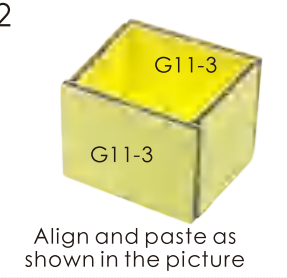

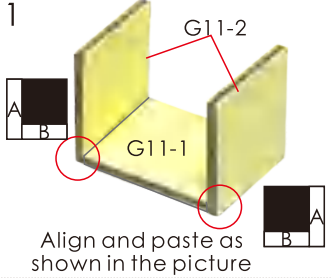

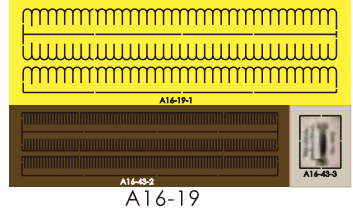

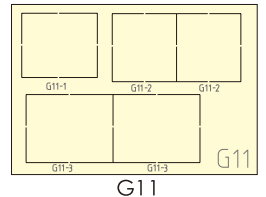

Flower basket

Before production, first cut out the wood particle board of G09; According to personal preferences, the following components can be selected for production

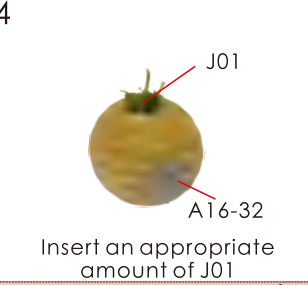

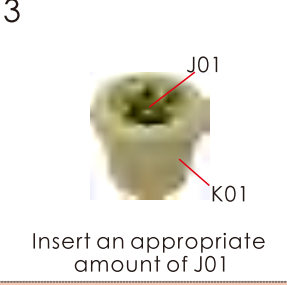

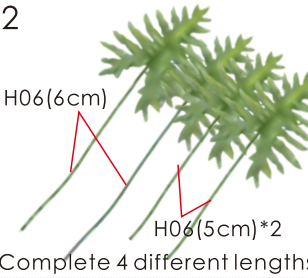

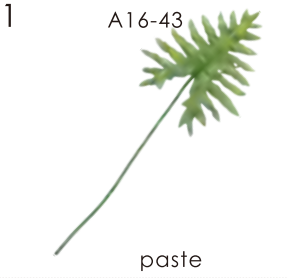

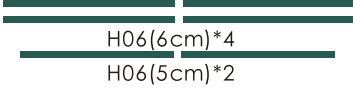

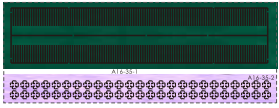

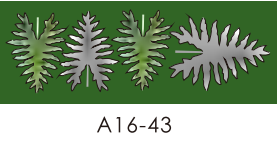

Sunflower

Before production, first remove the G11 wood particle board

Green plants

According to personal preferences, the following components can be selected for production

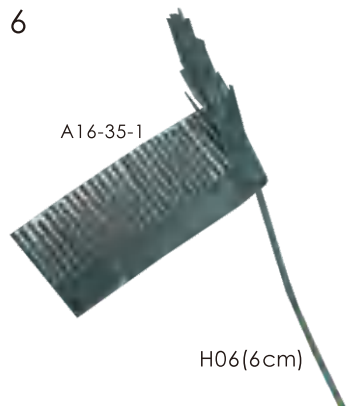

5

(Green Plant 1)

Insert and fix as shown in the picture

6

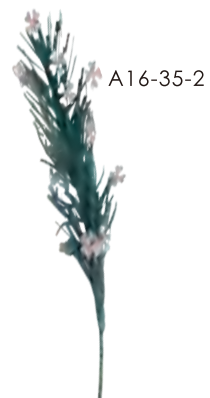

A16-35-1 wrapped around H06 and pasted

7

To organize the design, 2 sets need to be completed

8

Apply an appropriate amount of A16-35-2

9

(Green Plant 2)
Insert and fix as shown in the picture

10

(Flower basket)

Place the components as shown in the diagram, fix and paste them

11

(Second floor cabinet)

(Cabinet)

Place the components as shown in the diagram, fix and paste them

12

(Green Plant 1)

Place the components as shown in the diagram, fix and paste them

13

(sunflower)

Place the components as shown in the diagram, fix and paste them

14

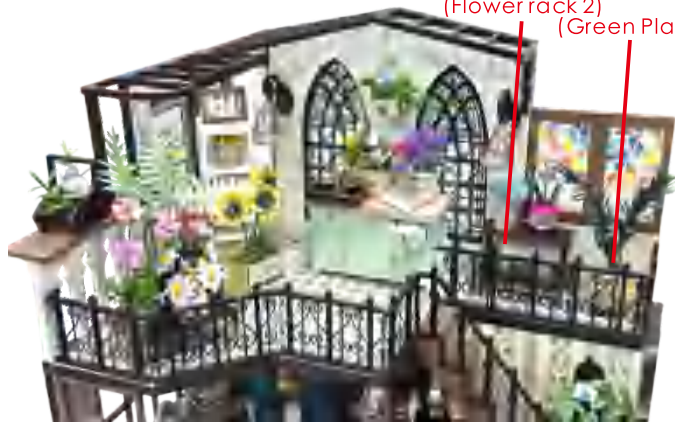

(Flower rack 1)

Place the components as shown in the diagram, fix and paste them

15

(Flower rack 2)
(Green Plant 2)

Place the components as shown in the diagram, fix and paste them

16

(lounge)

Place the components as shown in the diagram, fix and paste them

17

A16-44

A16-44

J02

Insert (chrysanthemum) as shown in the picture to add rich layers, paste A16-44 climbing vine on one side, and then paste an appropriate amount of J02

Tip: The pasting position can be freely adjusted~

Add colorful flowers on the green climbing vine as shown in the picture
Tip: The pasting position can be freely adjusted~
